

## OptiBond™

### Bonding Agents

**Optibond™ FL** Setting a gold-standard reputation after more than a decade on the market, OptiBond FL is a filled, light-cure total-etch dental adhesive that offers a simple two-bottle or unidose delivery with only one light-curing step.

**OptiBond™ Solo Plus™** is a single-component dental adhesive designed for both direct and indirect bonding applications. It is 15% filled with the same 0.4 micron filler found in the Kerr Point 4 composite.

**OptiBond™ XTR** self-etch, light-cure universal dental adhesive stands apart as the only bonding agent that embodies both the power and durability of a total-etch adhesive and the simplified protocol of a self-etch technique.

**OptiBond™ Universal** simplifies the restorative procedure by providing superior adhesion to all surfaces and substrates for both direct and indirect applications - even indirect metal-based restorations when used with NX3 resin cement.

## Harmonize

Universal Composite with Adaptive Response Technology

Harmonize™ received **5 out of 5 Plus's** and a **96%** clinical rating from The Dental Advisor. In addition to this rating, the product received the **Editor's Choice Award** Recognition

**BUY 4** Harmonize™ Composite Refills **GET 1** of the same Shade A2 Refill **FREE**

## SonicFill™ 2

### Single-Fill™ Composite System

Building upon the award-winning performance of its predecessor, SonicFill 2 meets the key requirements of a successful bulk fill procedure dentists deserve and expect.

- Excellent adaptation and handling
- High depth of cure
- Lasting marginal integrity
- Improved esthetics, durability and more working time

SonicFill 2 transforms tedious, repetitive posterior restorations into easy and reliable SingleFill placement: filling cavities up to 5mm in depth in a single increment, with a single material – and no liner or capping layer.

**BUY 5** Sonic Fill 2 Composite Refills **GET 2** Shade A2 Refills **FREE**

## Maxcem Elite™ & NX3 Nexus™ Third Generation

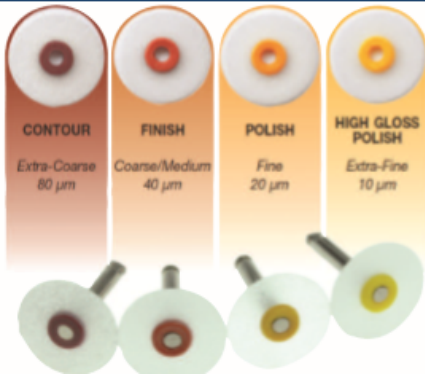

**Maxcem Elite Chroma** Maxcem Elite Chroma is the first self-etch/self-adhesive resin cement offering a Colour Cleanup Indicator, making it one of the smartest cements available on the market today. The pink colour fades at gel state, telling you the optimal window of time to clean up excess cement.

**NX3 Nexus™** Third Generation Universal Adhesive Resin Dental Cement for all indirect applications, NX3 Nexus™ Third Generation is a permanent adhesive dental cement system with an innovative chemistry for unmatched esthetics, adhesion and great versatility.

**BUY 3** Refills of Maxcem Elite™ Chroma or NX3 Nexus™ Cement, **GET 1** of the same **FREE**

## OptiDisc

The high performing disc is now even easier to choose!

- **Translucent disc.** Enhanced working surface visibility.
- **Flexible.** Thin disc allows for greater disc flexibility.
- **Long-lasting.** Made of durable polyester impregnated with aluminium oxide particles.
- **Precise.** Flush-mounted mandrel and patented retention system ensure precise operation, protecting neighbouring teeth from scarring and tissue damage.
- **Ready to use abrasive layer.** Uncoated cutting edges for high efficiency from the start.
